

## Table of Contents

1. Introduction.....	3
2. Linear electron accelerators in radiography. ....	6
2.1. Types of accelerating structures .....	7
2.2. Energy switching.....	8
3. Accelerating structure design.....	8
3.1. Smooth regulation of linac’s energy.....	11
4. Additional devices for fast energy switching verification. ....	20
5. Results .....	21
5.1. Accelerating structure tests .....	21
5.2. Verification of energy switching.....	22
5.3. Dose rate measurements .....	23
5.4. Test of energy switching stability .....	25
5.5. Results in application.....	27
6. CANIS detector hardware.....	29
6.1. Introduction.....	29
6.2. Front-end electronics .....	30
6.3. Data Acquisition .....	30
6.4. Data Forming and Transmission .....	31
6.5. Detector Module .....	31
6.6. Power Supply System .....	33
6.7. Mechanical Construction.....	34
7. Summary.....	36
